Analysis	Answer
Edward speaks in a tone of disbelief to highlight his ignorance. He is blind to the lack of opportunities others receive and his own privilege. (METHOD) A 'dictionary' is a symbol for education and is used to enhance our knowledge (MEANING) , which we associate with education and future opportunities he is likely to gain (CONNOTATIONS). This creates the idea Edward, as a microcosm for the working class, is destined for a life of success due to the opportunities he receives from such a young age (IN THIS CONTEXT)	'Don't you know what a dictionary is?'
Edward's teacher speaks in a casual tone, indicating that success is expected of Edward, which foreshadows Edward's and the middle classes inevitable paths, as a result of their privilege. (METHOD) 'Oxbridge' is a combination of the two highest performing universities at the time. (MEANING) We associate them with success, opportunity and a bright future. (CONNOTATIONS) This foreshadows the idea of the middle class having their futures positively paved out for them. (IN THIS CONTEXT)	'Talks of Oxbridge'
Edward is characterised as ignorant here and oblivious to the issue of poverty. (METHOD) The question has connotations of confusion but also disregard. (CONNOTATIONS) This creates the idea of widespread ignorance throughout the middle class and highlights a wider societal issue, that the middle class are ignorant towards, or lack care towards the struggles those in the working class face. This lack of understanding reinforces the class divide and solidifies resentment between different classes. (IN THIS CONTEXT).	'Why's a job so important?'

3. Blood Brothers Mickey Key quotations

Analysis	Answer
Mickey is juxtaposed against Edward, and speaks in a tone of embarrassment to highlight his abject poverty. (METHOD) This means that he is unaware of what a dictionary is (MEANING) which has connotations of a lack of knowledge and lack of opportunities.(CONNOTATIONS). This creates the idea that Mickey, a microcosm for the working class, has not received the same opportunities as Edward has in education and early life, highlighting that education is not a priority and not valued in the working class. This forbodes Mickey and the working classes future of failure and desperation. (IN THIS CONTEXT)	‘it’s a thingy’
Mickey speaks in a tone of apathy, (METHOD) meaning he is dismissive of his education. (MEANING) It has connotations of being disengaged and not seeing the value of school. (CONNOTATIONS) This creates the idea that he is ignorant to the importance of education as he throws away any slight opportunity he had, therefore sealing his fate of failure later in life. It forebodes a life of desperation and struggle, as he is stuck in a cycle of abject poverty. (IN THIS CONTEXT)	‘Yeah yeah, it’ll really help me get a job’
Mickey is characterised as utterly desperate. (METHOD) ‘Crawl’ which means to be on all fours, (MEANING) connotes begging and pleading.(CONNOTATIONS) This creates the idea that Mickey is a slave to poverty, and that he is trapped by a failed system. It highlights that working class are willing to do anything in order to survive but are limited due to the unfair class system in place. Clearly, there is a need for a social reform to get rid of the negative hierarchy of social class and provide equality for all. (IN THIS CONTEXT)	‘I’d crawl back to that job for half the pay and double the hours’
