Year 10 – Term 1

Look

Look at the information carefully.
Read it three times.
It may help to say it as you read it.

Cover

Cover it with your hand or a piece of paper.

Write

Write it out, from memory.

Check

Check what you have written matches the information exactly.
Have you got it correct? If so, tick your work to show it is correct. If it doesn't match exactly, use your purple pen to correct it.

Correct

If it doesn't match exactly, use your purple pen to correct it. Repeat.
When you get it 100% correct, move on to the next piece of information.

Language Paper 1

Question	Answer
Structure of the paper	
1a. How long is the paper?	1 hour and 45 minutes.
1b. What is the focus of the paper?	Fiction
1c. How many questions does the paper have?	5 on each paper.
1d. How many extracts does the paper have?	1.
State the focus, marks and timing for every question	
2a. Paper 1 – Question 1	Multi-choice – 4 marks – 5 minutes.
2b. Paper 1 – Question 2	Language analysis – 8 marks – 12 minutes.
2c. Paper 1 – Question 3	Structural analysis – 8 marks – 15 minutes.
2d. Paper 1 – Question 4	Evaluation – 20 marks – 28 minutes.
2e. Paper 1 – Question 5	Creative writing – 40 marks – 45 minutes.
Procedural Knowledge – The Key Strategies	
3a. Name the three steps of the 3 STEP APPROACH.	1) Inference 2) Evidence 3) Analysis – Method, Meaning, Connotation, Context
3b. Name the 7-section structure for Lang 1 (05) Creative Writing.	1) Characterisation 2) Pathetic Fallacy 3) Flashback 4) Symbolism 5) New character 6) Key moment 7) End

Anthology Poetry

Question	Answer
The poem presents the complexities of parent/child relationships as the son fights for control of his life, while his mother struggles to release him into adulthood.	Mother Any Distance
The speaker explores a relationship that is over - the speaker has been betrayed; it explores the grief and long-term emotional scars that this can cause.	When We Two Parted
The poem presents the complexities of parent/child relationships - parents provide a security and love that we only fully comprehend when they are gone, and the connections transcends death, despite the pain of losing them.	Eden Rock
The son (speaker) explores the impact of strong role models and how they are pivotal to our development. He presents the notion that they inspire you, but they can equally burden you because of their greatness.	Follower
The speaker explores a fictional marriage - they portrays an ignorant farmer who objectifies his wife, exploring the trauma that control can inflict – especially in a time when patriarchy condemned women to being subservient to men.	The Farmer's Bride
The speaker explores a relationship that is failing – it starts to fail after an extended period of conflict, until an epiphany inspired by two swans confirming the secret to a successful relationship.	Winter Swans

Anthology Poetry – MAD/WA

Question	Answer
1a. What is the first fundamental quotation we focus on in <i>Mother</i> ?	'Single span...second pair of hands.'
1b. Which method is used?	Symbol – mother bird.
1c. What is the fundamental word/phrase and its meaning?	Span = wingspan.
1d. What are the connotations?	Safety but suffocating.
1e. What is the effect in the context of the poem/that moment?	Interference.
2a. What is the second fundamental quotation we focus on in <i>Mother</i> ?	'Anchor. Kite.'
2b. Which method is used?	Symbolism.

AMBITION | DETERMINATION | RESPECT

Question	Correct answer
1. Name the four layers that make up earths structure.	Inner core, Outer core, Mantle Crust.
2. The layer with of the earths structure that is the thickest is...	Mantle
3. The layer which is the hottest is the...	Inner core
4. The layer which controls the earths magnetic field is...	Outer core
5. The layer which is thin, brittle and ridged is...	Crust
6. The two types of crust are...	Continental and oceanic
7. The type of crust which is made of granite is...	Continental
8. The type of crust which is thicker is...	Continental
9. The type of crust which is denser is...	Oceanic
10. The process that happens in the mantle and causes tectonic plate movement is...	Convection currents

Question	Correct answer
1. At divergent plate margins the plates move...	Apart – away from each other
2. Which type of crust subducts at a convergent plate margin...	Oceanic - denser
3. At conservative plate margins plates move...	Side by side
4. The type of volcano that forms at a divergent plate margin is...	Shield
5. The type of volcano that forms at a convergent plate margin is...	Composite
6. A volcano with a high gas content which is more explosive is...	Composite
7. A volcano which is flatter because of its runny lava is...	Shield
8. The point of friction underground where an earthquake originates from is called the...	Focus
9. The point on the surface of the ground where seismic waves originate is called the...	Epi-centre
10. A earthquake will be more powerful if the focus is...	Shallow

Question	Correct answer
1. Earthquakes magnitude is measured on the...	Richter Scale
2. A method of predicting volcanic eruptions is...	Tiltmeter
3. A method of planning for volcanic eruptions is...	Planned evacuation centres
4. A method of predicting an earthquake is...	Tracking plate movement
5. A method of planning for an earthquake is...	Having emergency services on call
6. In 2010 an earthquake hit the developing country of Haiti, and its magnitude was...	7.0 on the Richter scale
7. One primary effect was the number of deaths, and this was estimate to be...	316,000
8. Another primary effect was that the main port was destroyed in the capital city which is called...	Port-au-Prince
9. A secondary effect was that Cholera spread throughout the makeshift camps; this caused more deaths which was estimate to be...	8000
10. 180,000 homes were destroyed which made people...	Homeless

Question	Correct Answer
1. Something that happens immediately when a hazard occurred is classified as a....	Primary effect
2. Something that happens in the weeks or months following a hazard is classified as a....	Secondary effect
3. A short-term response to the Haiti earthquake in 2010 was to provide aid for people. This was sent from...	The USA and Dominican Republic
4. The earthquake in Japan happened in 2011 and was a magnitude...	9.0 on the Richter scale
5. One primary effect was the number of deaths, and this was estimate to be...	16,000
6. The Tsunami caused a meltdown of a nuclear powerplant in...	Fukushima
7. A secondary effect was the cost of re-building, this was estimated to be...	\$235 billion
8. An immediate response was that the bullet train was fitted with a...	Automatic braking system
9. A long-term response was that the Tsunami barrier was rebuilt, it was rebuilt at a height of...	12 metres
10. This was an issue because when the 9.0 magnitude earthquake hit in 2011 the Tsunami waves were...	15 metres

Question	Correct answer
1. Tree rings can show us what past climates were like from their...	Rings
2. The bigger the gap between tree rings...	The warmer and wetter the climate
3. Ice cores show us what past climates were like by testing the amount of...	Gas Bubbles (CO2)
4. The more gas found in year layer of an ice core the...	Warmer the climate
5. More modern evidence of climate change is temperature data and...	Sea Ice position
6. We started collecting accurate temperature data in the...	1860's
7. Climate includes the amount of precipitation and the...	Temperature
8. One factor that changes the climate of the world naturally is orbital change. This is when the sun's rotation around the earth changes from circular to...	Oval (ellipses)
9. Another natural cause of climate change is sunspot. The more sunspots (solar flares) on the surface of the sun the...	Warmer the climate
10. Volcanic eruptions cool the earth's climate as the ash cloud blocks....	Solar radiation

Question	Correct answer
1. A human cause of climate change is burning fossil fuels. This releases...	Carbon dioxide
2. Humans also cut down trees. This is called...	Deforestation
3. This means that there are less trees to absorb...	Carbon dioxide
4. When humans add more greenhouse gasses to the atmosphere this causes the...	Human enhanced greenhouse effect
5. This makes the climate of the earth...	Warmer
6. If the earth's temperature increases this will cause the ice caps to melt which will cause...	Rising Sea Levels
7. Global warming could also cause some area to become more arid leading to a lack of water causing...	Droughts
8. If the ice caps melt animals such as Polar bears will lose their...	Habitats
9. The Artic loses 13% of its sea ice every...	10 years
10. In the Maldives sea level rise means 80% of the country will be lost by...	2050

Question	Correct answer
1. The main causes of sea level rise is thermal expansion and...	Eustatic sea level rise
2 . Where the coral turns white and can no longer photosynthesise is known as	Coral bleaching
3. During the 2023 heatwave in Europe, the number of people that died was ...	70,000 people
4. Climate change can cause animals to die on a large scale which is called ...	Extinction
5. High population growth is will cause the rate of climate change to ...	Speed up
6. This is because more people require more food, so agriculture will ...	Increase
7. If countries reduce the amount of fossil fuels used there will be less greenhouse gases in the ...	Atmosphere
8. this will cause the rate of climate change to ...	Slow down
9. Coal-fired power stations continue to be built in India and China will cause the rate of climate change to ...	Increase
10. If we increase the use of renewable energy the rate of climate change will	Slow down

Question	Correct answer
1. Warm air rising creates...	Low pressure
2. As air rises it cools and condenses creating...	Clouds
3. In low pressure areas there will be...	High Rainfall
4. Low pressure happens in the Hadley cell on the...	Equator
5. High pressure is caused when air is...	Sinking
6. This leads to no clouds and therefore...	Low Rainfall
7. In high pressure areas there will be ...	Clear skies
8. High pressure areas happen in the Hadley cell on the...	Tropics of Cancer and Capricorn
9. The cell between the tropics and 60 degrees is called the ...	Ferrel cell
10. At the poles air is ...	Sinking

Question	Correct answer
1. Warm air rising creates...	Low pressure
2. As air rises it cools and condenses creating...	Clouds
3. In low pressure areas there will be...	High Rainfall
4. Low pressure happens in the Hadley cell on the...	Equator
5. High pressure is caused when air is...	Sinking
6. This leads to no clouds and therefore...	Low Rainfall
7. In high pressure areas there will be ...	Clear skies
8. High pressure areas happen in the Hadley cell on the...	Tropics of Cancer and Capricorn
9. The cell between the tropics and 60 degrees is called the ...	Ferrel cell
10. At the poles air is ...	Sinking

Question	Correct answer
1.Hurricanes are form over the Atlantic from ...	June to November
2.Cyclones form between November to April in the	Indian Ocean
3.The tropical storm that form over the Pacific ocean from May to October is called a ...	Typhoons
4.Tropical storms only form when sea temperatures are 26.5 degrees and above at a depth of ...	60m
5.Tropical storms can only form between 5 and 30 degrees ...	North and south of the equator
6.Further north and south the water is	Too cold
7.Earth's rotation makes the cyclones spin which is called the ...	Coriolis effect
8.Tropical Cyclones move west due to ...	Easterly winds
9.Tropical storms get stronger over ...	Warm waters
10.Low pressure lifts the sea to create a ...	Storm surge

Question	Correct answer
1.Tropical Cyclones are measured on the ...	Saffir Simpson scale.
2.Thick, dense clouds cause prolonged and intense ...	Rainfall
3.Another hazard from tropical cyclones is ...	Landslides
4.The potential to be harmed by natural hazards is known as ...	Vulnerability
5.An area with a higher physical vulnerability is often ...	Low lying coastal areas
6. An area with a higher social vulnerability is often ...	Areas of poverty
7. An area with a higher economic vulnerability is often ...	A developing nation
8. Elderly population are more vulnerable to the impacts due to not being able to ...	Evacuate
9. If a country is more developed it is more capable to make accurate weather predictions using ...	Tracking data
10. Areas of low relief will be at risk of ...	Storm surges

Question	Correct answer
1. Cyclone Nargis hit Myanmar on ...	Friday 2nd May 2008
2.Cyclone Nargis was a category ...	Four
3. The percentage of rice paddies destroyed by cyclone Nargis was ...	65%
4.The number of people killed by cyclone Nargis was ...	140,000
5. The bodies lay in the streets for ...	9 days
6. Hurricane Katriana became category five over the ...	Gulf of Mexico
7.The percentage of people that were able to evacuate Hurricane Katrina was ...	80%
8.The number of people killed by Hurricane Katrina was ...	1,800
9. The ward that was most affected by Hurricane Katrina was ...	Lower 9th ward
10. The repair cost of Hurricane Katrina was over ...	\$150 billion

Question	Correct answer
1.Any form of immediate action taken to save lives, prevent human suffering is known as ...	Immediate response
2.Those that go on for months and years after a disaster and involves constructing destroyed houses, schools, hospitals is known as ...	Long term responses
3. In Myanmar replanting has taken place in the ...	Mangroves
4. After cyclone Nargis the government ordered people to not remove the ...d	Dead bodies
5. The Australian army distributed aid such as ..	Clean water
6. Evacuation was ordered but was not effective as many people did not have ...	TV's and radios
7. After hurricane Katrina the levees were repaired in 53 places which cost ...	\$14.5 billion
8. The percentage of people evacuated was ...	80%
9. Homes were not rebuilt in ...	The lower 9th ward
10. The US coastguard carried out search and rescue which saved ...	50,000 people

All equal as "the _____ of a _____" from the _____.	"teeth... comb" Qur'an
The first female Bishop in the C of E was _____ in _____.	Libby Lane, 2015
A quote from the Bible on the role of women in worship is...	"Women should remain silent in Church" St Paul
Catholics believe the role for women is...	To support services or become a Nun/Sister/Abbas

L&D5 The Soul

Questions	Answers
Christians and Muslims are dualists. What does this mean?	Belief in a body and a soul
Which Humanist philosopher said “When I die, my body shall rot. No part of me shall survive.”	Betrand Russell
Humanists believe that there is no part of the human body that lives on. This is called...?	Materialism
The soul was God-given to Adam through the...?	“breath of life”
Muslims believe that our souls have an inner knowledge of Allah called?	Fitrah
RETRIEVAL- R6 Divorce	
In Islam, the iddah is...	A 3-month trial separation period before divorce
“What God has joined...	let no man separate”
“Of all things permitted by _____, _____ is hated most” from the _____.	“Of all things permitted, Allah hates divorce the most” from the Qur’an.
Quakers decide on divorce by...	Using their conscience and Holding a vote
Catholics believe that divorce is...	Sinful and remarriage = adultery

L&D6 Judgement and Afterlife

Questions	Answers
In Islam, waiting period after death is called ? heaven is called ? and hell is called ?	Barzakh, Jannah, Jahannam
Christians believe on Judgement Day we will be raised with?	New immortal bodies
What is the teaching that shows if you help others you go to heaven?	The Parable of the Sheep and Goats (Jesus' teaching)
Christians believe God created the...?	"Heavens and the Earth"
Muslims believe paradise has..?	"rivers of milk and honey"

L&D7 Funerals

What are read from the Bible to comfort mourners?	Prayers/hymns
What is done to represent Jesus as the light of the world?	Light candles
What are Muslims buried in and how?	White shroud (equality), facing Mecca (Jannah)
What is whispered into the deceased person's ear?	Shahadah (statement of faith)
Who said, "the things they care for shall continue"?	Bertrand Russell

L&D8 End of Theme Recap

Questions	Answers
The standard of health or happiness experienced by an individual	Quality of life
All life is sacred and given by God	Sanctity of life
The process where physical characteristics of living creatures change over time	Evolution
The idea that we should work as a community to look after the world.	Global Citizenship
Assisted suicide- ending a patient's life to relieve suffering	Euthanasia
The deliberate termination of a foetus up to 24 weeks	Abortion
To use natural resources responsibly to preserve them for future generations.	Environmental Sustainability
Non-physical, immortal part of a human	Soul
The belief that life continues after death	Afterlife

Music - Year 10 – Term 1

Africa Background

Question	Answer
Who wrote Africa?	David Paich and Jeff Porcaro
What is the name of the band that recorded Africa?	Toto
What year was Africa written?	1981
What year was it released?	1982
What year did it reach no. 1 in the US?	1983
What is the term for musicians hired to perform on a recording without being a permanent member of the artist's band?	Session musician
What genre is Africa?	Soft Rock
What is the structure of Africa?	Verse-chorus

Harmony and Tonality

Question	Answer
What am I defining? Harmony using chords from the key.	Diatonic
What am I defining? Harmony using chords from outside the key.	Chromatic
What am I defining? A type of tonality where there is no clear key	Atonal
What is the term for a pattern of chords that forms the harmonic foundation of a song?	Chord sequence
What is harmonic rhythm?	The number of chords per bar.
What are the three primary chords?	I, IV and V
Are the primary chords major or minor (in a major key)?	Major
What is an extended chord?	Using additional notes to the triad

Africa Harmony and Tonality

Question	Answer
What is the overall tonality in Africa?	Diatonic
What key is the chorus in?	A major
What key are the verses and instrumental sections in?	B major
What key are the intro, outro and link sections in?	C# minor
What is the chord sequence in riff A?	A G#m C#m
What is the chord sequence in the chorus?	F#m D A E
How many times does this chord sequence repeat?	3
How does the chord sequence change to end the chorus?	F#m D A C#m E F#m E/G#

Harmony and Tonality continued

Question	Answer
What are the three parts of a triad?	Root, third and fifth.
What is the root of a C major chord?	C
What is the term for a chord when the root is the lowest note?	Root position
What is the term for a chord when the root is not the lowest note?	An inverted chord
What is the term for a chord where the third is the lowest note?	1st inversion
What is the term for a chord where the fifth is the lowest note?	2nd inversion
What is the term for a chord written with a slash in the middle eg C/G	A slash chord
What is a slash chord?	Another term for an inverted chord
Which note is the lowest note in a slash chord?	The one written after the slash

Africa Harmony and Tonality continued

Question	Answer
What key are the verses and instrumental section in?	Diatonic
What key is the Chorus in?	A major
What key are the verses and instrumental sections in?	B major
What key are the intro, outro and link sections in?	C# minor
What is the chord sequence in riff A?	A G#m C#m
What is the chord sequence in the chorus?	F#m D A E
How many times does this chord sequence repeat?	3
How does the chord sequence change to end the chorus?	F#m D A C#m E F#m E/G#

Scale degrees and chords

Question	Answer
What is scale degree one?	Tonic
What is scale degree two?	Supertonic
What is scale degree three?	Mediant
What is scale degree four?	Subdominant
What is scale degree five?	Dominant
What is scale degree six?	Submediant
What is scale degree seven?	Leading note

Africa Melody

Question	Answer
All melodies in Africa are...	Diatonic
Chorus - conjunct or disjunct?	Conjunct
Chorus – range?	Narrow – mostly uses a semitone, extends to a 4th at the end of the chorus
Chorus – High or low tessitura?	High
Verse - conjunct or disjunct?	Mostly conjunct
Verse - range?	Wider – uses the range of an octave
Verse – High or low tessitura?	Low
Which scale does riff B use?	C# minor pentatonic
What scales does the solo use?	B major pentatonic and E major.

Africa developments

Question	Answer
How does the melody change in the second verse?	Adds a disjunct leap of a 6th
How does the texture and instrumentation change in the second verse?	Recorder countermelody added
How do the backing vocals change in the second verse?	Harmonise some words, sing some chords to 'ooh'
How does the melody change in the final chorus?	Improvised, high pitch lead vocals
How does the instrumentation change in the instrumental?	No vocals, added xylophone and flute sounds (played on the synth)
How does the instrumentation change in the outro?	Added percussion (xylophone, woodblock, cowbell, conga)
How does the bass change in the outro?	Bass plays riffs in a higher register.

Form and Structure

Question	Answer
What is structure?	The order of the music.
What am I defining? A section of melody that forms a complete musical idea	A phrase.
What is an AB structure?	Binary
What is an ABA structure?	Ternary
What is an ABACA... structure?	Rondo
What is an A a A A A... structure?	Theme and Variations
What is the most common structure in pop music?	Verse-chorus

Periods of Music

Question	Answer
What are the dates for each era?	Baroque – 1600-1750 Classical - 1750-1810 Romantic - 1810-1900
What keyboard instrument was used in the Baroque era?	Harpsichord
What is the term for a baroque era bassline with harmonic support played by a harpsichord?	Basso Continuo
What is the term for sudden changes in dynamics, a common feature of the baroque era?	Terraced dynamics
What are the other characteristics of the BAROQUE ERA.	Fast, unrelenting melodies, ornamentation, small orchestra
What is the term for a bassline made of broken chords, a common feature of the classical era	Alberti bass
What are the other characteristics of the CLASSICAL ERA	Balanced, graceful melodies, medium orchestra.
What is the term for pushing and pulling at the tempo, a common feature of the Romantic era	Rubato
What are the other features of the ROMANTIC ERA	Large orchestras, wide pitch range, expressive, sweeping melodies, chromatic, wide dynamic range
Name three composers for each era	Baroque – Bach, Handel, Purcell Classical – Mozart, Hadyn, Beethoven Romantic – Tchaikovsky, Wagner, Chopin

Badinerie background and structure

Question	Answer
Who composed Badinerie?	J. S. Bach
When was it written?	Between 1738 and 1739
What larger work is it part of?	Orchestral suite no. 2
What instruments is it written for?	Transverse flute, string orchestra and basso continuo
What is the structure of Badinerie	Binary (AABB)
How many bars is the A section?	16
How many bars is the B section?	24
What is the overall key of the piece?	Bm
What key does the B section start in?	F# minor (dominant minor)

Badinerie background and structure

Question	Answer
Who composed Badinerie?	J. S. Bach
When was it written?	Between 1738 and 1739
What larger work is it part of?	Orchestral suite no. 2
What instruments is it written for?	Transverse flute, string orchestra and basso continuo
What is the structure of Badinerie	Binary (AABB)
How many bars is the A section?	16
How many bars is the B section?	24
What is similar about the A and B sections?	Same motifs, tempo, instrumentation, both start with an anacrusis
What is different about the A and B sections?	B section has more modulations, is longer, includes a Neapolitan 6th chord.

Badinerie harmony

Question	Answer
What is the overall harmony?	Diatonic
What is the overall key of the piece?	Bm
What is the key of the A section?	Starts in Bm, ends in F#m
What other key does the A section pass through?	A
What is the key of the B section?	Starts in F#m, ends in Bm
What other keys does the B section pass through?	Em, D, G
What kind of chords are used?	Root position, 1st inversion, 2nd inversion, Dominant 7ths.

Cadences + suspensions

Question	Answer
What chords are in a perfect cadence?	V -> I
What chords are in a plagal cadence?	IV -> I
What chords are in an imperfect cadence?	V
What chords are in an interrupted cadence?	V -> vi
Which cadence is used to change key?	Perfect
What harmonic feature describes a note from a chord being held into the next chord?	Suspension
Which bars in Badinerie have suspensions?	8, 10 and 31.

Badinerie cadences

Question	Answer
Which cadences are used frequently in Badinerie by Bach?	Imperfect and Perfect
What cadences does each section end with?	Perfect
Perfect cadences in B minor are in bars...	3-4, 30-32, 37-38, 38-40
Perfect cadences in F# minor are in bars...	11-12, 15-16,
Perfect cadence in A major is in bars...	6-8
Perfect cadence in E minor is in bars...	19-20
Perfect cadence in G major is in bars...	23-24
Perfect cadence in D major is in bars...	27-28

Badinerie melodic and rhythmic features

Question	Answer
How many motifs does Badinerie use?	two
Describe the melodic features of motif X	Disjunct, arpeggio, descending
Describe the melodic features of motif Y	Both conjunct and disjunct, arpeggio, ascending
What other melodic features are present in Badinerie?	Ornamentation (Trills and appoggiaturas) Sequences Anacrusis
What rhythmic values do motifs X and Y use?	Quavers and semiquavers.
What is the time signature?	2/4
What is the tempo?	Allegro (not marked)

AMBITION | DETERMINATION | RESPECT

Questions	Answers
What does RAM stand for?	Random Access Memory
What type of memory is RAM?	Volatile memory
What happens to data in RAM when the computer is turned off?	What does ROM stand for?
What does ROM stand for?	Read Only Memory
What type of memory is ROM?	Non-volatile memory
How many bits are in 1 byte?	8 bits
How many bits are in a nibble?	4 bits
What is the abbreviation for gigabyte?	GB
How many bytes are in a kilobyte?	1000 bytes
What is virtual memory?	A section of secondary storage temporarily used as RAM
What is secondary storage used for?	Long-term storage of programs and data
What is lossy compression?	A type of compression that reduces file size by removing data

Hospitality & Catering – Term 1

Food Safety in Hospitality and Catering	Answer
What 4 things do bacteria need to grow	Food, moisture, temperature, time
Give visual symptoms of food poisoning	Vomiting, diarrhoea, fever
Give 3 non-visual symptoms of food poisoning	Nausea, stomachache, headache
What is the temperature range for the 'Danger Zone'	5 C to 63 C
What happens to bacteria at -18 C	They become dormant but do not die
What are the 2 main food intolerances	Lactose and Gluten
What does anaphylaxis mean	A severe and sudden life-threatening allergic reaction that affects the entire body
What does HACCP stand for	Hazard Analysis Critical Control Point
What is the main piece of legislation for food	The Food Safety Act 1990
Who inspects food premises	An Environmental Health Officer
Which bacteria is associated with cooked rice	Bacillus Cerreus
Which bacteria can cause very sudden vomiting	Staphylococcus aureus

Nutrition	Answer
Name the 3 MACRONUTRIENTS	Fats, protein, carbohydrates
Name the 2 MICRONUTRIENTS	Vitamins and minerals
What are the fat-soluble vitamins	Vitamins A, D, E, K
What are the water-soluble vitamins	Vitamins B and C
What vitamins do vegetarians and vegans lack	Vitamin B12
What is the function of vitamin A	Vision, immune function and the health of our skin
What is the function of vitamin D	Needed along with calcium to build strong bones and teeth
What is the main function of the B group of vitamins	The convert food into energy
What is the function of iron	To make haemoglobin which transports oxygen around the body
What is the function of calcium	Regulates fluid balance, muscle function and maintain blood pressure
What is the function of protein	For growth, repair and maintenance
What is the function of vitamin K	Blood clotting and bone health

Statistics – Term 1

Barnsley Academy
The best in everyone™
Part of United Learning

AMBITION | DETERMINATION | RESPECT

Types of data

Definition	Terminology
1. Data as it has been collected, before it has been processed	Raw data
2. Worded data	Qualitative data
3. Data that can be split into clear, non-overlapping categories	Categorical data
4. Numerical data	Quantitative data
5. Data that can be ordered	Ordinal data
6. Numerical data that can take any value	Continuous data
7. Numerical data that can only take specific values	Discrete data
8. Involving pairs of related data	Bivariate data
9. Involving 3 or more sets of related data	Multivariate data
10. The statistics term for a number or amount	Frequency

Methods of data collection

Definition	Terminology
1. Data collected by, or for, the person who is going to use it	Primary data
2. Data collected by an outside source	Secondary data
3. Everyone or everything that could be included in an investigation	Population
4. Collecting data using the entire population	Census
5. Collecting data using part of the population	Sample
6. Each individual member of the population	Sample unit
7. A list of the population	Sampling frame
8. Defines the subject area to investigate	Research question
9. An idea that can be tested	Hypothesis
10. A tendency to favour one person or thing over another	Bias

Sampling methods

Definition	Terminology
1. A sample in which every member of the population is equally likely to be included	Random sample
2. A sample which is proportionally representative of the population's characteristics	Stratified sample
3. A sample selected at fixed intervals	Systematic sample
4. A sample selected by the investigator, aiming to be representative of the population's characteristics	Judgement sample
5. A sample selected by the investigator, using the quickest or easiest members of the population	Opportunity sample
6. A sample where the population is split into groups or areas	Cluster sample
7. A sample where the proportion of members with each characteristic is pre-selected	Quota sample
8. A question which gives the respondent answer boxes or options	Closed question
9. A question which allows the respondent to give their own answer	Open question
10. A question that prompts or encourages a certain response	Leading question

Terminology

Definition	Terminology
1. An investigation that tests what it is supposed to test	Validity
2. An investigation that gives consistent results	Reliability
3. The variable being investigated	Explanatory variable
4. The outcome of an investigation	Response variable
5. Variables outside our control that may affect the investigation	Extraneous variable
6. A group that receives no treatment or is given a placebo to ensure results are comparable	Control group
7. To perform a scientific investigation, often in a laboratory	Experiment
8. To run a computer program or model of an investigation	Simulation
9. A natural experiment or study involving no physical intervention	Observation
10. Data collected from a series of questions or prompts	Questionnaire
